

Bay Area  
Medical Academy

## Train for a New Career as a Medical Assistant

### HYBRID ONLINE & IN-PERSON CLASSES

Bay Area Medical Academy's 3-in-1 Medical Assistant with Phlebotomy and EKG Program provides rigorous training in core competencies associated with Medical Assisting, Phlebotomy, and becoming an EKG technician, with the aim of preparing graduates to work professionally in the field.

Learn how to perform routine tasks, such as vital-signs testing, patient preparation for exams and procedures, as well as administrative duties needed for successful entry into the healthcare field.

Our program prepares you to become a **Medical Assistant with 3 certifications:**

- National Certified Medical Assistant
- Certified EKG Technician, CET
- California Certified Phlebotomy Technician (CPT-1)/ National Certified Phlebotomy Tech
